Submit

Method: POST

/submit_page →

/login

- Doesn't display anything to user
- If login button clicked
  → attempts a login
    ↳ if failure, flashes error
- If create acc. button clicked
  → attempts to create account
    ↳ if failure, flashes error
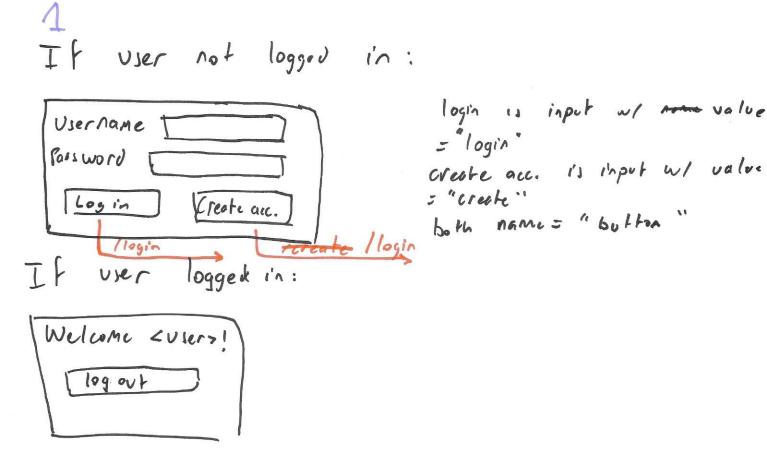

- Redirects to previous page

/submit_page

- Takes POST data from /add or /edit

- If adding, adds title and content to DB

- If editing, replaces old contents w/ new one in DB

- Redirects to /results page

1

If user not logged in:
